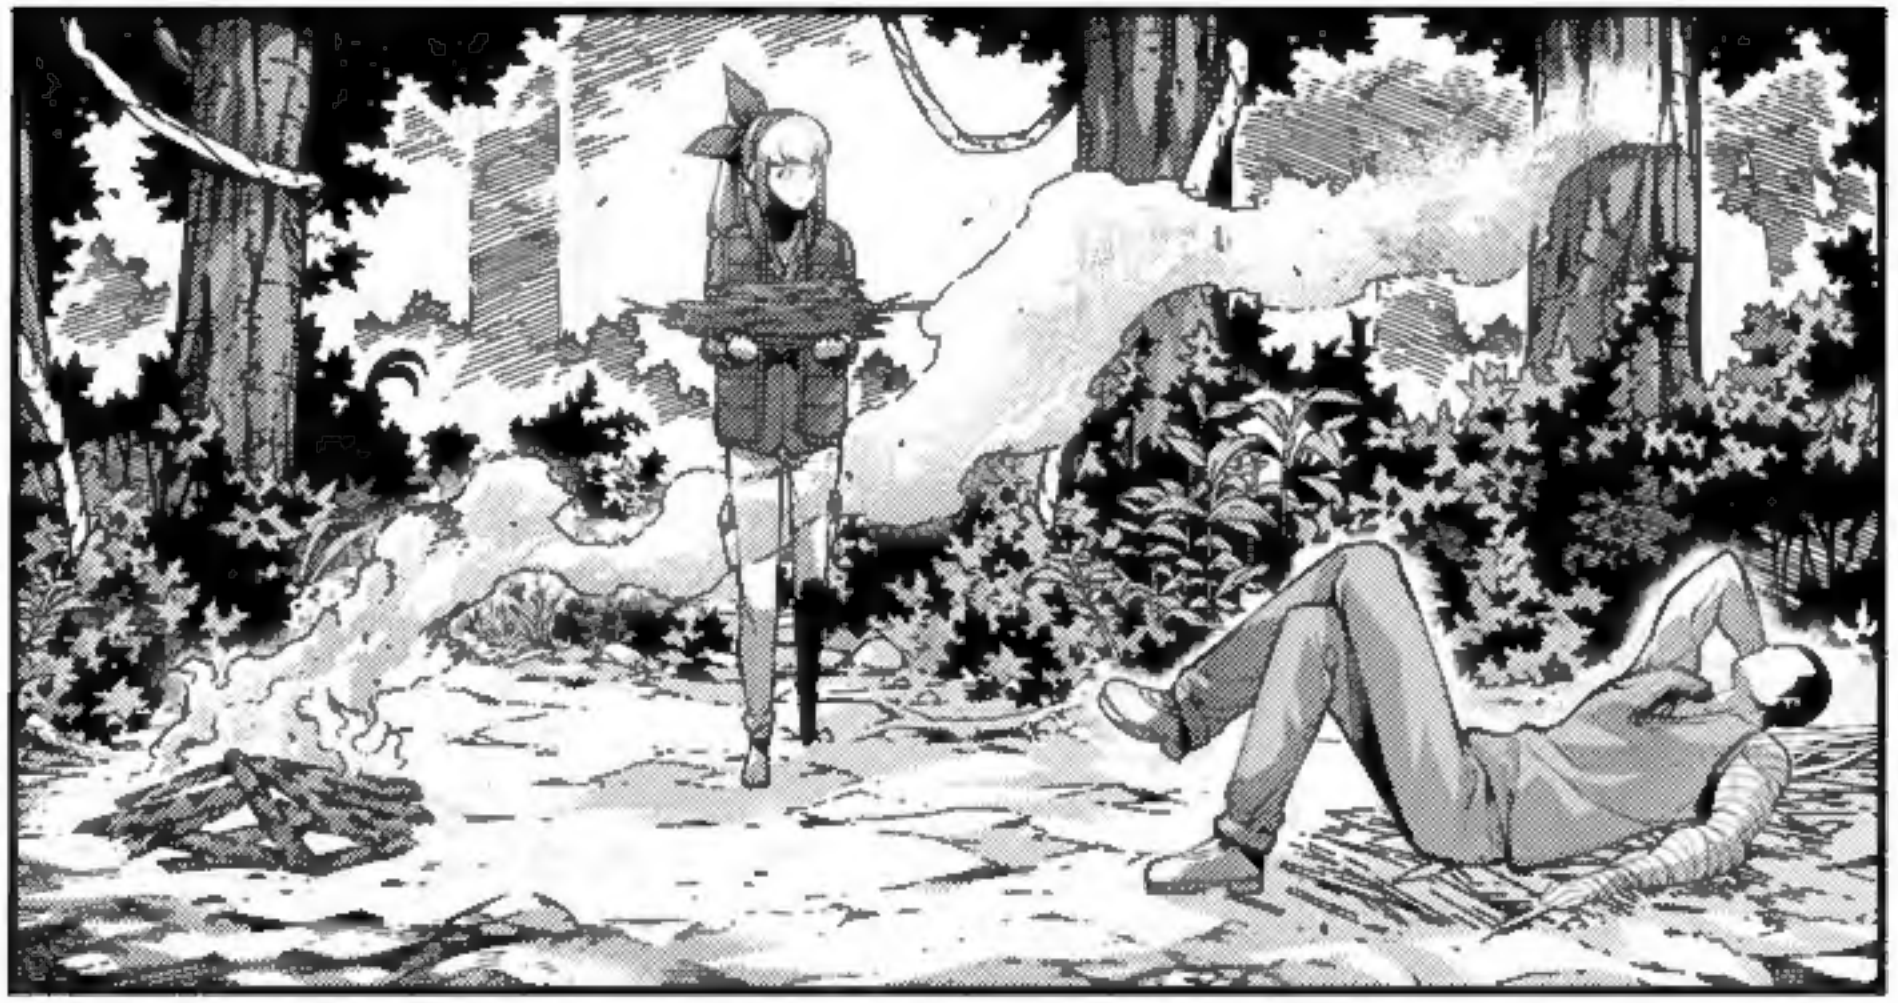
CHAPTER 19: STRATEGY - PART 2

*THIS STORY IS FICTION. IT HAS NO CONNECTIONTO REAL LIFE PEOPLE OR ORGANISATIONS.



IS YOUR WOUND OKAY?

BUT IF YOU DO WHAT I SAY, THEN I'LL LET YOU OFF THE HOOK!

WHEN I GET BACK TO THE CITY, I'M GONNA GATHER ALL MY FRIENDS AND TAKE REVENGE ON EVERY-ONE!

WHAT WILL YOU DO? CHOOSE !!

!!

4

DON'T BE ROUGH ...

.....

ムニパ

MMGU
...

ムニパ

5

GYA
HAA
HAA
HAA
!!!

ハッハッハッ

HEH
...

HA
HA
HA
HA
!!

MGU
!

ムニパ

MM...
MM!

ムニパ

MUTSUMI! LET'S GATHER THE CENTI-PEDES!

THE COAST IS CLEAR.

GOING BY THAT, THERE SHOULD BE MANY LYING, HIDDEN UNDERNEATH STONES AND LOGS.

CENTIPEDES LIKE TO HIDE IN COOL PLACES WITH HIGH HUMIDITY.

WHY !?

PLEASE, WAIT.

MMM !

AS A TOOL, THEY'RE EFFECTIVE AGAINST THE LIKES OF POISONOUS SNAKES.

BECAUSE WE NEED TO FIRST MAKE A SASUMATA TO CAPTURE THEM.

ウム ウム

PLEASE, STICK THEM BETWEEN THE SASUMATA TO STOP THEM MOVING.

WHEN YOU FIND A CENTIPEDE, DO NOT TOUCH IT BY HAND.

BY LOOKING FOR SOMETHING THAT IS BIFURCATED LIKE A STRONG BRANCH ABOUT 1M IN LENGTH, AND ALIGNING THE BIFURCATED PART SO THAT ITS LENGTH IS ABOUT 5CM,

WHEN YOU HAVE ROPE OR TAPE, YOU CAN WRAP IT AROUND THE PART YOU HOLD WITH YOUR HANDS TO STOP IT FROM SLIPPING OFF.

ﾄﾞﾄﾞﾄﾞ
MMMM MMM!
GUUUH!
HAA!
HAA!
ｺﾛｰﾝ

IT'S A MILLI-PEDE!

WAIT, PLEASE! THAT INSECT IS NOT A CENTI-PEDE!

THERE'S NO ESCAPE !!

ZU

PLEASE, ABSO-LUTELY DO NOT GIVE STIMU-LUS TO A MILLI-PEDE!

CENTI-PEDES, MILLI-PEDES, WE CAN CAPTURE BOTH, RIGHT !?

THEY WILL USE THE COMPOUND HYD-ROCYANIC ACID!!

IN ORDER TO PROTECT THEIR BODIES.

WHEN THEY'RE THIS SIZE, THEY CAN EASILY KILL A PERSON!

YOU MEAN THE HAZARDOUS SUBSTANCE... CYANIDE?

HYDRO-CYANIC ACID?

WHEN THEY RECEIVE EXTERNAL STIMULUS, THEY SECRETE ODOR THROUGH THEIR VENOM GLANDS. THAT IS WHY PEOPLE HAVE SAID SINCE LONG AGO TO NEVER EAT FROM A POT ONCE A MILLIPEDE HAS ENTERED. WHEN IT HAPPENS IN LARGE QUANTITIES, CAREFUL ATTENTION IS NECESSARY FOR EXTERMINATION.

INSIDE MILLIPEDES, THERE LIES VARIOUS KINDS OF DANGEROUS TOXINS INCLUDING GASTRIC ACID COMPOUNDS IN ORDER TO PROTECT ITS BODY

THE MILLIPEDE

MYRIAPODA SUBPHYLUM DIPLOPODA CLASS UNIDENTIFIED SUBSPECIES

A... ARE YOU SERIOUS ...!?

IF YOU BREATHE IN THE HYDROCYANIC ACID WHEN IT VAPORIZES, IT CAN BECOME A SERIOUS PROBLEM.

WHEN SURPRISED, A MILLIPEDE CURLS UP ITS BODY.

XIII

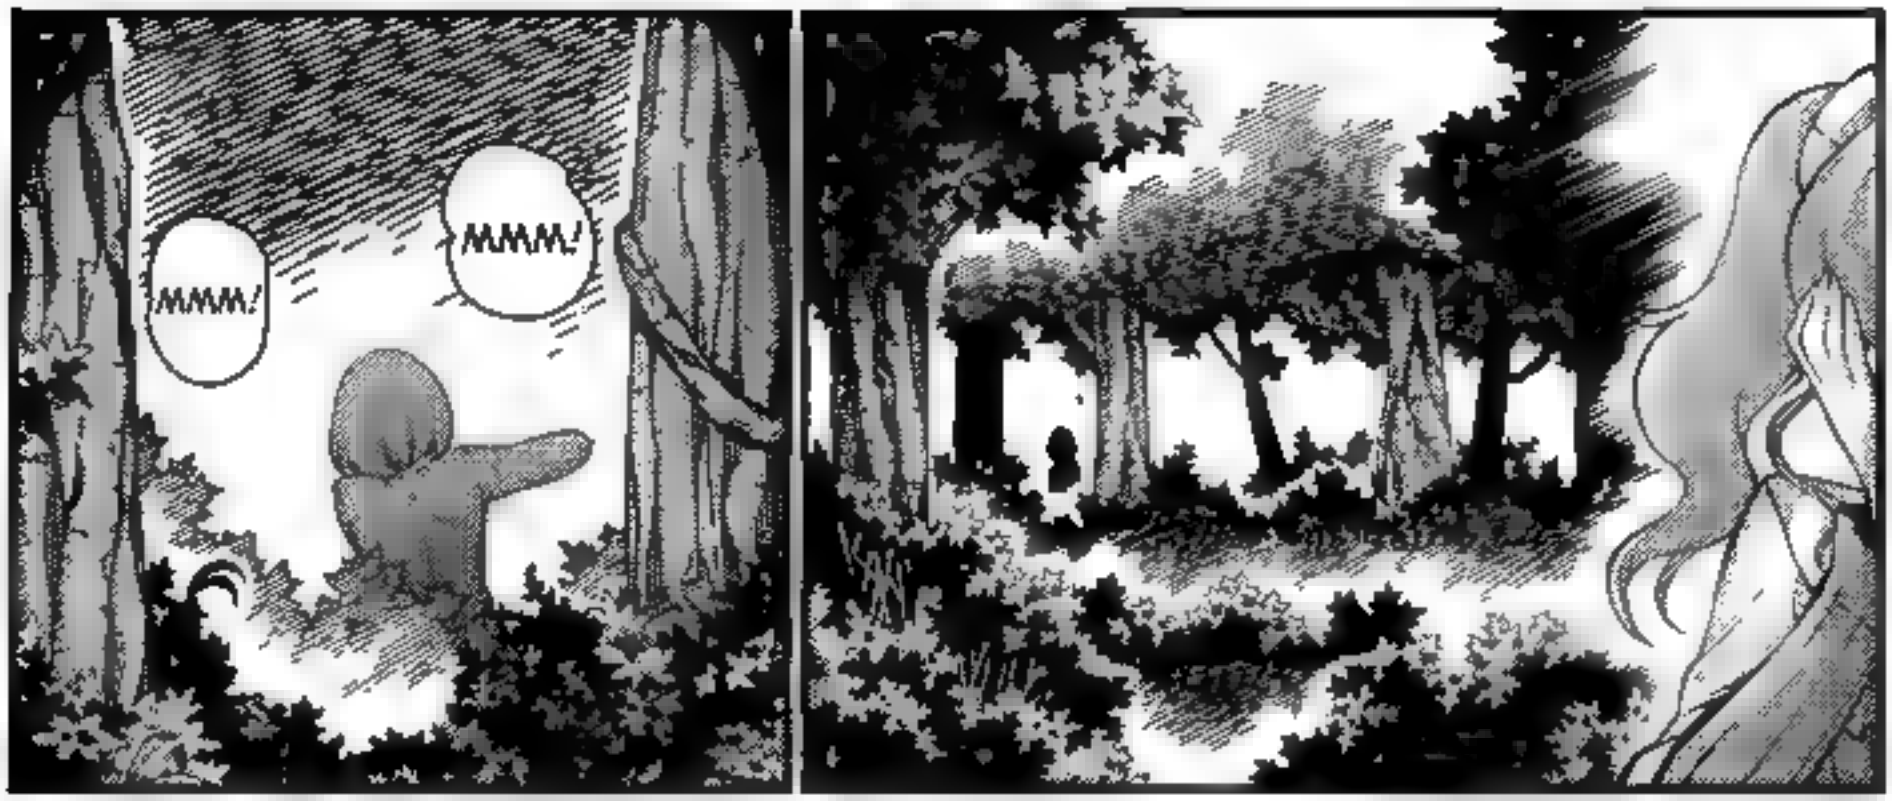
YES?

MUT-SUMI !!

HYI !!!

TAKE THIS!

WE HAVE 8 CENTIPEDES SO FAR.



MMM!
MMM!

UGGH!

!
ゴロン
ゲ
ゲ

THERE ARE SO MANY MILLI-PEDES ...

IF I GET MUTSUMI TO FALL INTO THIS, THE HYDRO-CYANIC ACID WILL...

AO-YAMA, WHERE ARE YOU!?

I'M COMING RIGHT NOW!

ORIBE! THERE'S TOO MANY CENTI-PEDES! I NEED A HAND!

!?

!

HAA. THAT WAS CLOSE ...

A SUDDEN ATTACK FROM BEHIND !?

See ya next time
